ABOUT ME

I apply the same discipline and focus I use at the gym to build robust Java/Spring Boot backends. I am a highly motivated Junior Full Stack Developer who thrives on complexity, transforming intricate requirements (like the plot of a good anime) into clean, high-performance RESTful APIs and stable systems. I have a working knowledge of the full stack (React/Next.js) and have been actively learning and experimenting with AI/LLM service integration. Ready to lift heavy projects and deliver efficient code.

TECHNICAL SKILLS

Backend: Java, Spring Boot, REST APIs, MySQL

Frontend: HTML, CSS, Js, React, Next.js, Tailwind CSS

AI & Data: Python, Pandas, Power BI, Apache Spark, Ollama

Tools: Git, Github, Docker(basic)

CERTIFICATIONS

- IELTS B2 - band 6.5
- Boolean Tech Academy - Web Development Full Stack
- Experis Academy - Data Science

PROFESSIONAL HISTORY

Junior Store Manager

Fra Diavolo | Oct 2023 - present

Managed daily operations, ensured inventory accuracy, and coordinated a small team. (Demonstrates leadership and organization skills)

IT Technician - stage

Puntoriparazioni | 2018

Performed hardware/software diagnostics, repairs, and provided direct technical support to customers.

ACADEMIC BACKGROUND

Full Stack Web Development Academy 2024 - 2025

Data Science Program 2023

Bachelor's Degree in Business Administration ongoing

High School Diploma in Computer Science 2018

MY PROJECTS

- **AI Translation App (DeepL-Style Clone)**
  React, Node.js, OpenAI API, Ollama
- **Blafflix – Netflix-Style Streaming Platform**
  Next.js, TypeScript, Tailwind, TMDB API
- **Ticket Platform**
  Java, Spring Boot, MySQL
- **Tower Defense Game**
  HTML, CSS, JavaScript
- **PyMoney**
  Python, Kivy, Pandas
- **Dashboard(WIP)**
  Java, Spring Boot, Thymeleaf
